Summary view of ARTG# 199593

 **ARTG Name:** Integra Neurosciences Pty Ltd - Pudenz Straight Connector - Connector, catheter (199593 Class III)
Sponsor Name: **Integra Neurosciences Pty Ltd - 47300**
Therapeutic type: **Medical Device**
Licence product category: **Included**
Class: **Class III**

Active Manufacturers

 **Manufacturer:** Integra Neurosciences Active (32137)
Country: **United States Of America**
Step:

No Ceased Manufacturers Located in the Register

Product

 **Product:** Pudenz Straight Connector - Connector, catheter (359637)
Product type: **Single Device Product**
Intended purpose: **Catheter connector utilized principally in the treatment of hydrocephalus patients, as components in systems designed to shunt cerebrospinal fluid from the lateral cerebral ventricles of the brain into either the right atrium of the heart or the peritoneum.**
Functional description: **Used to join Pudenz standard, barium sulfate impregnated and graduated silicone elastomer catheter to flushing devices. It may also be used to join sections of catheter to each other.**
Variant information: **Model number (see guidance docs) NL.850-1900**
GMDN: **Connector, catheter (32339)**
