Good morning, 22
Some of these are still being investigated as they are reports received via SMS survey data, however I can confirm
AU-TGA-0000688525/V2112-060993- Is not deceased and the reaction was an ISR
AU-TGA-0000688523/V2112-060955- Is not deceased and the reaction was abdominal pain

Kind regards,

22

Good morning,

I am emailing in regards to a group of fatal AEFIs that were reported to the TGA. These reports were all received by the TGA on the 30/12/21, all describe the death of a young person who was

administered Comirnaty COVID-19 vaccine on sequential dates 22 [REDACTED]
Given this unusual pattern, we were hoping you were able to provide us more information regarding these reports and potentially whether these reports had a common source.

Hi,

The information that I have from our clinical management systems, confirmed by webPAS is that this person is alive as at 14/06/2022 and has laboratory results against their medical record collected yesterday, 13/06/2022.

If required we can also check the WA Death Registry.

Please advise if you would like this further investigation done.

Kind regards

Dear WA COVID AEFI team,

RE: Death of patient initials 22

date of birth: 22

Therapeutic Goods Administration (TGA) Case Number: ADR **AU-TGA-0000737775**

I am emailing in regards to a fatal AEFI that was reported directly to the TGA on the **27/05/2022**. This report describes a **74 yo/ Female** who was administered **Comirnaty** and **Vaxzevria** vaccines on and sadly died from **CVA**.

We have received the following information on the 10/05/2022:” **This patient does not appear to be deceased (according to WebPas)”**

It will be great assistance if you are able to confirm if this information is true?

Please do not hesitate to contact me on adr.reports@health.gov.au if you have any questions.

Thank you for your assistance with this matter.
