s47E(c) - I do want you to consider de-identifying all letters (include the one to Veganics – also involving names in screenshots being redacted). I understand this is allowable under our policy. Given the nature of the many statements made by the sponsor in question on public forums, de-identifying decision makers/signatories seems a prudent step.

Thanks Avi

In response to your first question, my preference is to refer to the white label entities as 'third party suppliers' (or words to that effect) and avoid referring to them as sponsors so as to distinguish them from sponsors of goods on the ARTG.

Thanks s47E(c)Section 42 of the FOI Act - Legal Professional Privilege

One question I have – either for you or s47E(c) – is what the status of the white label entities are? If they are not the sponsor of the goods as listed in the ARTG – how are we designating their involvement? Supplier?

Also – related to the white label entities – the letter looks good though I do wonder if we can plain language it a little more (without diluting content of course) given the potential range

of recipients.

And happy to chat.
