Dear Mr Slater,

**AUSTRALIAN REVIEW OF POLICY FRAMEWORK FOR REGULATING
PRODUCTS AT THE COSMETIC/THERAPEUTIC INTERFACE SPECIFICALLY
SUNSCREEN PRODUCTS**

I would like to add my voice to oppose deregulation of sunscreens with an SPF of no more than 20. If consumers cannot tell what amount of sun protection their sunscreen gives them then it is impossible for me to advise them whether or not their sunscreen is adequate. I would be grateful if all sunscreens could continue to be labelled appropriately with SPF factors and clear verification of any claim regarding UVA protection.

Yours sincerely,

Dr Leith Banney.
