Re: Low Value Turnover Exemption Scheme

Thank you for the opportunity to respond to the proposed changes to the Scheme.

We agree with OPTION 4. Replace the LVT scheme with one that only grants exemptions for Register entries where the sponsor is a small business

This is the fairest system and as stated the burden of proof red tape is virtually zero.

This change if implemented would have no impact on our business. It would allow the TGA to increase revenue from bigger businesses and see the potential removal of redundant products from the ARTG.

Thanking you for the opportunity to contribute.

Yours sincerely,
Mark Skipper
