Introduction

The TGA is required to recover its costs for all activities that fall within the scope of the *Therapeutic Goods Act 1989*, including the TGA's public health responsibilities.

- A fee is charged for a service, such as a product evaluation.
- A charge is a form of tax on regulated industry and is applied annually based on a 1 July to 30 June financial year.

Go to:

- [Payment options](#) for information on how to pay
- [Information and notices about TGA fees and payments](#) for general information.

This guidance is a summary of fees and charges, which are in the Australian therapeutic goods legislation. This is not an exhaustive list.

For a complete list of all fees and charges and the exact legislative wording, please refer directly to the legislation.

More about chemical entities annual charges

Higher annual charges

Regulation 8 of the *Therapeutic Goods (Charges) Regulations 2018* states when the higher annual charge applies for prescription medicine chemical entities.

Briefly, for prescription medicine chemical entities, a higher annual charge applies:

- whatever the duration or registration, for medicines containing at least one specified active ingredient:
 - thalidomide
 - leflunomide
 - lenalidomide
 - mifepristone
 - clozapine
 - isotretinoin
- until eight years have passed since registration, following an application for:
 - new chemical entity

- extension of indications
- change to intended patient group

Annual charges following applications for other major variations will incur higher or lower charges depending on the parent good, for example:

- new formulation
- change of strength
- new dosage forms

Lower annual charges

The lower annual charge applies for:

- most generic prescription medicines
- most prescription medicines that are not biological medicines past the eighth anniversary of an application approval for a:
 - new chemical entity
 - extension of indications
 or
 - change to intended patient group.
