Subject: LVT RIS complaint to OBPR from ADIA [DLM=For-Official-Use-Only]

Dear Moya & Michael

Just to let you know that Stephen Cull, OBPR phoned today to speak with Nicole regarding the complaint from ADIA re LVT.

I forwarded the message onto Vinod who has spoken to Stephen and dealt with the issue.

At this point in time, there is no need for a meeting to be scheduled.

Kind Regards

Lee

Hi John

Heads up on the attached request for a meeting with OBPR on this matter. I believe Michael's suggestion for a meeting with Nicole and Vinod initially is the right approach. We will respond with Nicole as the contact unless we hear otherwise.

Judy

Please see the note below regarding a complaint from ADIA and the LVT RIS. Would appreciate your advice re the most appropriate contact person from TGA to discuss this with the OBPR. I suggest it may be both Vinod and Nicole?

Michael

Subject: LVT RIS complaint [SEC=UNCLASSIFIED]

Hi Michael

As discussed, Stephen Cull from the OBPR has called me regarding a complaint they have received concerning the LVT RIS. The complaint is from ADIA. Stephen would like to meet with the appropriate people within the TGA to discuss the matter as part of the OBPR's investigation of the complaint. Although Stephen was not in a position to discuss the full extent of the complaint it is my understanding that it was in regard to the level of consideration that their submission received in the impact analysis.

Stephen can be contacted on 6271 6276. I advised him that TGA would provide a contact tomorrow. Stephen did not have any involvement with the assessment of the LVT RIS

Kind regards, Moya
