**Re: Listing Notice for Sodium Fluoride**

Please find attached a review of the availability of sodium fluoride as an active ingredient in listed medicines. On the basis of this review, it is identified that the Therapeutic Goods (Listing) Notice 2008 (No. 1) for sodium fluoride has not been updated in line with changes made to the relevant schedules of the Poison Standard. I recommend that the TGA amend the Therapeutic Goods (Listing) Notice 2008 (No. 1) for sodium fluoride to allow **up to 1500 mg/kg** of fluoride in listed medicines with inclusion of relevant advisory statements.

Dr Xiangting Zhou
