

RE: Silicone fluids [SEC=UNCLASSIFIED]

MARTIN, Ashley to: Peter.Farrington [REDACTED]

31/01/2012 08:48 AM

Hi Peter

I spoke last week with Bluestar's General Manager (Asia), who acknowledges the urgency of this matter and is pushing for urgent sample despatch from EU.

Regards
Ash Martin

Hi Ash,

Did you have any luck with your European contacts ?

Best Regards,

Peter

Hi peter

Further to your phone message, I have been chasing for updates, but none received as yet. Now, with my contacts all off for Chinese New year, I will unlikely be able to gain any further update this week.

Regards
Ash Martin

Hi Peter

I have requested samples from the manufacturer in Europe, and discussed with them, but no delivery date is available as yet.

Regards
Ash Martin

Hi Ash,

As we discussed on the phone, please try to supply small samples (~500mL) of BlueSil Oil V 1000 and BlueSil RTV 141 parts A & B to the TGA for evaluation.

We understand that these are silicone compounds supplied by Bluestar Silicones. We have the technical data sheets and material safety data sheet for the materials, but we would appreciate more information. Could you please provide more detailed information about the sorts of impurities that are present in the materials. For example: The identity and the amounts of organic contaminants, inorganic contaminants, heavy metals, and additives such as preservatives, etc that are present in the finished materials, as well as the amount and identity of the main ingredients.

If there are any issues related to costs, delivery or timing, please let me know.

Best Regards,

Peter
