

Release of information by ACC [DLM=For-Official-Use-Only]

Eric McIntosh to: Jill Jepson
Cc: "Pio Cesarin"

07/02/2013 12:44 PM

Hi Jill

You are obviously aware the Australian Crime Commission (ACC) has publicly released censored information entitled Organised Crime and Drugs in Sport, surrounding project Aperio which was an ACC investigation in relation to organised crime in the Performance and Image Enhancing Drugs (PIEDs) market. The report, specifically at page four gives some detail of the ACC investigation with the Australian Sports Anti Doping Authority (ASADA) and TGA in relation to the use of peptides in Australian sport.

As this may draw some interest, I suggest the following responses below.

- The TGA can confirm that it has assisted the ACC with their inquiries in relation to Project Aperio.
- It is not appropriate for the TGA to comment on any details of TGA assistance in Project Aperio as this is a current investigation by the Australian Crime Commission.

Regards

Eric McIntosh
