Hi [REDACTED]

We sincerely appreciate the efforts of the FDA to communicate these alerts and thank you for the follow up. We did indeed receive your alert and 483 [REDACTED]. It was sent to our international gmp mailbox and was actioned at the time. However we now have a new mailbox: gmpcompliance [REDACTED] which is a better fit for FDA alerts involving 483s, import alerts, warning letters etc. Sending alerts relating to manufacturers to this box will ensure it gets to the right people faster.

Thanks and regards,
Michael
