Presumably, just leave it as it is?

H [Redacted]

Thanks,

I have made one comment and made one grammar change on the attached Minutes.
I am happy with the schedule changes in the instrument.

Dear Committee Members,

Please find attached draft minutes from yesterday's ACMS meeting for your consideration. I would be most grateful for any comments on the minutes by **COB today 9 September 2021**.

Also attached is a draft Poisons Standard Amendment (Ivermectin) Instrument, which incorporates the advice of the committee regarding the proposed Appendix D entry.

We have confirmed, to the best of our ability, that GP prescribing in Aboriginal and Torres Strait Islander communities is within the approved indications and that the relevant listed specialties are those detailed below.

With regard to the committee's advice that the highlighted text below was not entirely necessary and could be removed, our legal advice is that this should be retained to avoid any ambiguity.

an indication that is not an approved indication, when the preparation is prescribed or authorised by a medical practitioner registered under State or Territory legislation that forms part of the Health Practitioner Regulation National Law, as a specialist in any of the following recognised specialties:

- (a) dermatology;*
- (b) gastroenterology;*
- (c) infectious disease; or*

Due to the urgency of the matter we are aiming to make the instrument tomorrow. If you have any concerns regarding this, please let me know as soon as possible.

Kind regards,

[Redacted]
