Hi lovely webteam

We have an **urgent** request from John (sent to me via Nicole) to please remove the sentence highlighted below from our website...

The words to be removed are:

Additionally, where fees and charges are proposed to increase at a rate greater than indexation, a RIS will be considered and prepared and if required. a cost recovery impact statement prepared.

Can you please let Nicole/myself know when this has been done.

Cheers

TGA fees and charges

The TGA reviews its budget on an annual basis, and consults through meetings with industry stakeholders on proposed fees and charges for the following financial year.

Changes to fees and charges are documented in a cost recovery implementation statement (CRIS) which is published on the TGA website. Additionally, where fees and charges are proposed to increase at a rate greater than indexation, a RIS will be considered and prepared and if required, a cost recovery impact statement prepared.

How to participate in consultations

Information about our consultation activities is available via different formats, including a dedicated electronic information service ([//www.tga.gov.au/tga-consultations-email-list](http://www.tga.gov.au/tga-consultations-email-list)) that notifies subscribers when a new consultation has been publicly released.
