## DBL™ MORPHINE SULFATE INJECTION - PRODUCT SUPPLY UPDATE

Dear Valued Customer,

Further to our recent correspondence concerning the notification of Ampoule Shortage dated 29<sup>th</sup> April 2013, Hospira is very pleased to advise of the impending receipt and release of DBL Morphine Sulfate Injection presentations.

Stock will be made available for ordering from your wholesalers as per the table below.

Code	Product	Availability Date
618190BAU	DBL MORPHINE SULFATE 5MG/1ML	20 May 2013
618191BAU	DBL MORPHINE SULFATE 10MG/1ML	13 May 2013
618193BAU	DBL MORPHINE SULFATE 15MG/1ML	27 May 2013
618195BAU	DBL MORPHINE SULFATE 30MG/1ML	20 May 2013

Supply of DBL Morphine Sulfate injection will continue to remain constrained in Australia. As a result Hospira will continue to supply Wockhardt Morphine Sulphate 10mg/1mL Injection under S19A until the end of 2013.

Over the next month, Hospira will continue to work closely with our Wholesalers to release stock accordingly and maintain in-market supply. For any further information on these products, please contact:
