---

Dear Sir/Madam,

I am so honored that I can have my submission on Proposed amendments to the Poisons Standard. I totally agree the amend entry which has been proposed to amend the Poisons Standard. Here are my points below.

- HTP also have health issues, but HTP reduce much harmful chemicals found than conventional cigarettes.
- The HTP are better alternative for those people who really want to give up smoking.
- People around the HTP users inhale much less bad matters compared to the traditional smoking users.

Small steps make a big difference. May we have a healthy world.

Sincerely yours,

Nicole
