Following are some further stats that may be of interest to you (in addition to these, please note that people provided personal feedback and stories in their submissions):

Q2. Select the category that best represents you.

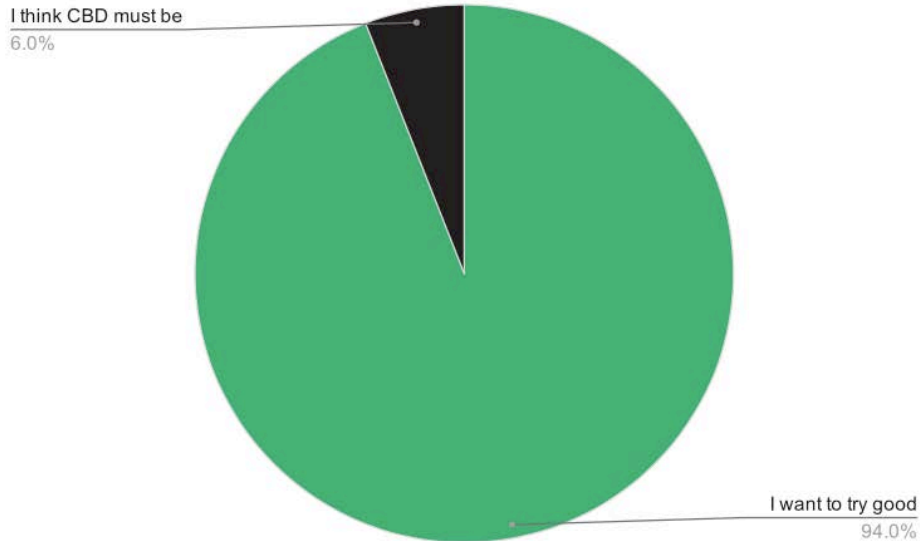

Q5. For what reasons would you or your loved ones like to try CBD?

Q6. Which of the following best supports your views?

Option 1 - I want to try good quality CBD for minor health conditions now and at the lowest price, while health claims continue to be researched.

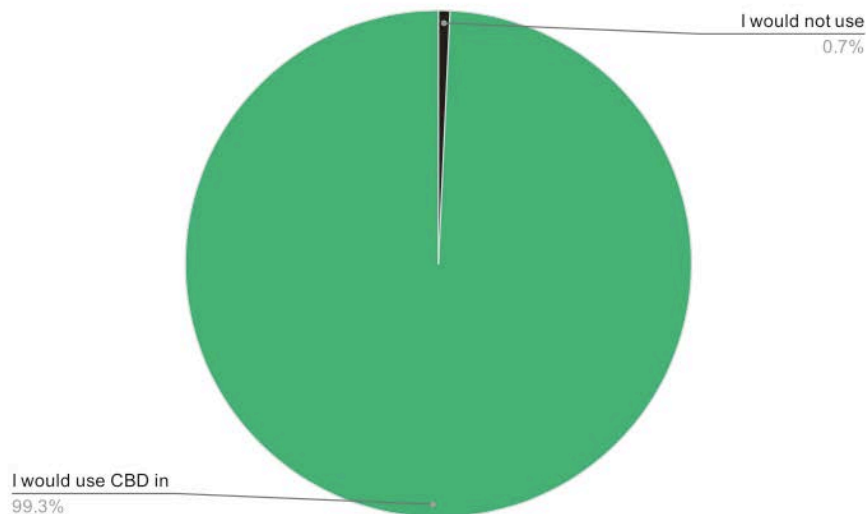

Option 2: I think CBD must be 'proven' to work at a very low dose (60mg) for the health claim on the label, before it is allowed to be sold.

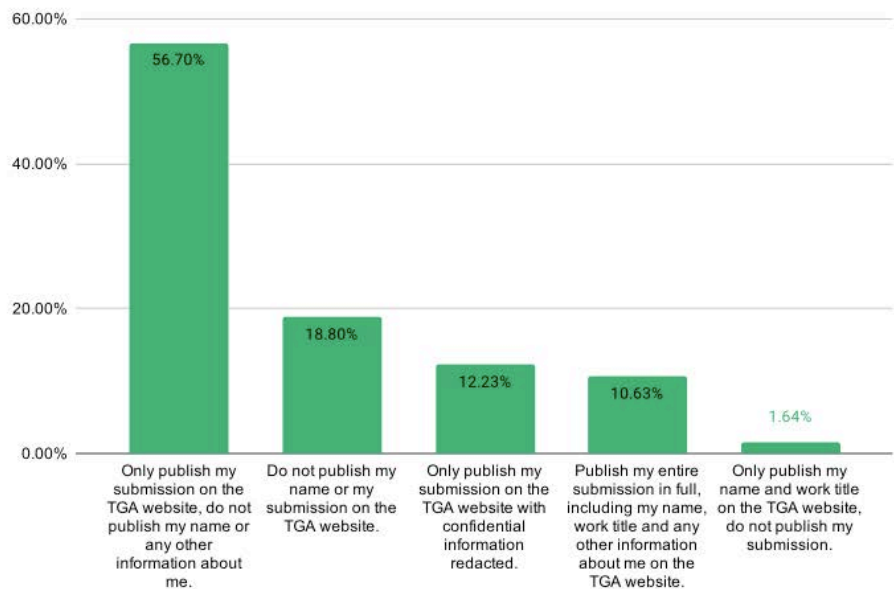

Q7. If low cost, high quality CBD became available would you have any intention of using CBD in ways that might be unsafe? Would you read the label and warnings?

Option 1: I would use CBD in a safe way

Option 2: I would not use CBD in a safe way and will not read the label and warnings.

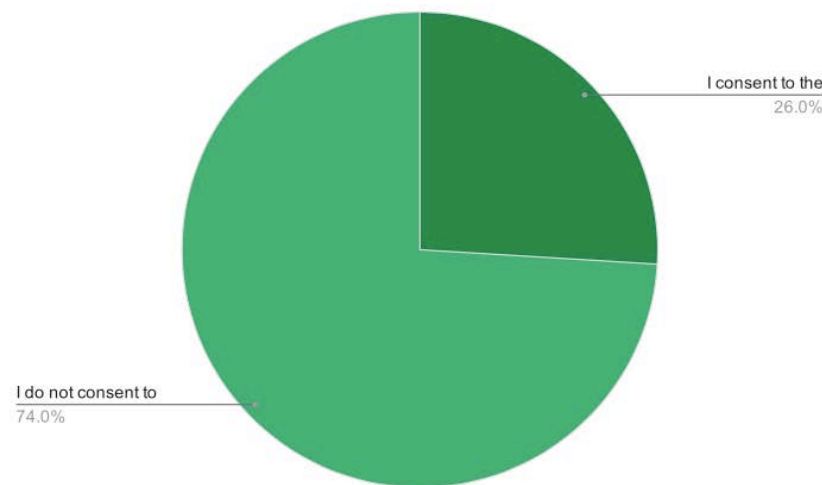

Q11. Under the Therapeutic Goods Regulations 1990, the TGA is required to publish public submissions in response to certain scheduling proposals. To protect your confidentiality, please select the most appropriate option below:

Q12. In order to publish your submission, the TGA requires your consent. Please select from the following two options:

Option 1: I consent to the publication on the TGA website of my personal information, including any sensitive personal information in my submission.

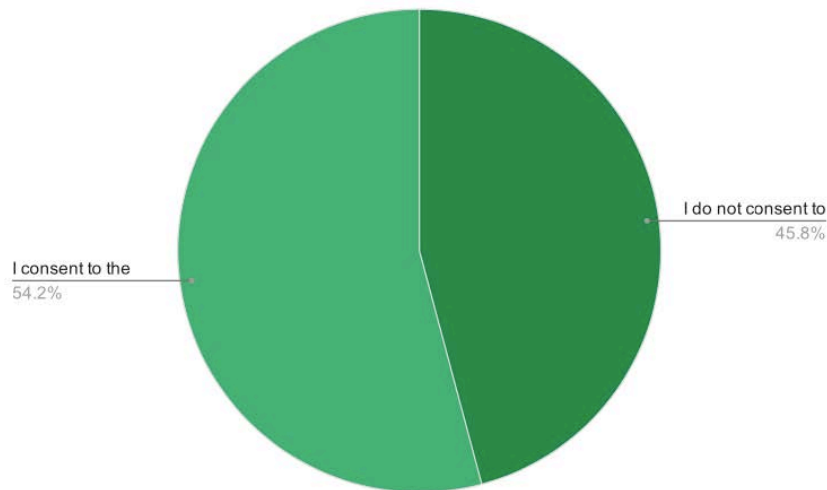

Option 2: I do not consent to the publication on the TGA website of my personal information.

Q13. The TGA may wish to contact you to ask for more information or to seek feedback about how the consultation was undertaken. Please select from the following options:

Option 1 - I consent to the TGA contacting me to ask for more information or to seek feedback about how the consultation was undertaken.

Option 2- I do not consent to the TGA contacting me to ask for more information or to seek feedback about how the consultation was undertaken.

Please let us know if there is anything else we can assist you with Natalia.
