---

To whom it may concern,

Please note that I would like to make the following submission to have the poison standard amended to include nicotine in tobacco “prepared and packed for heating”. I am making this submission as we miss the opportunity to offer the alternatives e.g. heated tobacco products to existing smokers who do not want to quit. I know someone in the family who used to be heavy smoker and seeing him without having other tobacco alternatives such as heated tobacco products and still wanted to smoke and resulting in switching to different type of cigarettes ultimately impacted his health.
