Subject: Proposed Amendments to the Poisons Standard (Medicines) – Nicotine

You have received this email because you filled out a form preparing a submission to the TGA, to amend the poison standard RE: nicotine.

To whom it may concern,

Please note that I would like to make the following submission to have the poison standard amended to include nicotine in tobacco “prepared and packed for heating”. Im making this submission because I believe my partner and other Australian smokers should have access to less harmful alternatives to smoking combustible tobacco, like their fellow smokers in the global community lucky enough to have a governing body in their countries that agrees and sees the bigger picture for their health
