Subject: Proposed Amendments to the Poisons Standard (Medicines) – Nicotine

To whom it may concern,

Please note that I would like to make the following submission to have the poison standard amended to include nicotine in tobacco “prepared and packed for heating”. I’m really disappointed that our country continually keeps knocking back safer ways for smokers the get there nicotine hit. The reality is that some smokers find it very difficult to give up and some never do regards of the health consequences. It’s time they had a choice to purchase smoke - free alternatives.
