To whom it may concern,

Please note that I would like to make the following submission to have the poison standard amended to include nicotine in tobacco “prepared and packed for heating”. I'm making this submission because I run a business selling cigarettes within a franchise and we are not allowed to sell vape products but are constantly being told by our customers how easy it is to obtain on-line from sources within Australia. I understand that these sources are not registered businesses and do not contribute taxes or returns for company purposes. Also there seems to be no positive resolution in case of damage or faults
