You have received this email because you filled out a form preparing a submission to the TGA, to amend the poison standard RE: nicotine.

To whom it may concern,

Please note that I would like to make the following submission to have the poison standard amended to include nicotine in tobacco “prepared and packed for heating”. I'm making this submission because I believe these products are safer and cleaner than cigarettes and the only reason they are not legal is because the government can't tax it.
