Subject: Proposed Amendments to the Poisons Standard (Medicines) – Nicotine

To whom it may concern,

Please note that I would like to make the following submission to have the poison standard amended to include nicotine in tobacco “prepared and packed for heating”. Smokers in Australia should have the opportunity and choice to access less harmful alternatives. It doesn’t make sense that smokers / vapers can buy nicotine liquid online from overseas, but they can’t access other alternatives such as heated tobacco products in Australia.

Regards,
