>
> To whom it may concern,
>
> Please note that I would like to make the following submission to have
> the poison standard amended to include nicotine in tobacco “prepared
> and packed for heating”. I'm making this submission as I have seen my
> father (now 75), smoke cigarettes for over 50 years! he has tried
> quitting multiple times, as well as having tried patches and gum and a
> flavoured vape, which did nothing. The reality is, he's tried a heated
> tobacco e-cigarette, which was as close to a cigarette experience as
> he's gotten, yet, he's unable to purchase these from the local store,
> yet they keep selling the worst case of nicotine intake being those
> cancer sticks, cigarettes. Why wouldn't something that isn't as bad as
> smoking be available?! It just doesn't make sense. I realise the
> government gets a great deal of tax from cigarettes, but why don't you
> apply similar taxes to the other forms of nicotine? I just want to see
> my dad stop smoking!
> Help!
