---

To whom it may concern,

Please note that I would like to make the following submission to have the poison standard amended to include nicotine in tobacco "prepared and packed for heating".

I'm am making this submission because I am a smoker who is looking for alternative products within Australia, but the current Australian law is preventing me access to these options. I have used alternative products such as Heat not Burn when travelling overseas however I am denied access to them due to our current laws, which results in me having to return back to cigarettes.

Regards

---
