To whom it may concern,

Please note that I would like to make the following submission to have the poison standard amended to include nicotine in tobacco "prepared and packed for heating". I'm making this submission because up until February 2019 cigarettes completely controlled my own and that of hundreds of people maybe thousands of lives that I know of. It's not nice to wake up "swimming in a sea of cigarette butts". It's not nice to have to beg strangers for them all day. It ruined my own and many others lives. I was a public nuisance and I couldn't help myself....an otherwise attractive laws abiding citizen. Well.....then I got my life back. My friend [REDACTED] introduced me to the vape. He had a Vaporesso Swag. It was actually life changing. I am so unhappy the government wants to take this away. Lucky for me....I started on 18mg strength nicotine juice. I am now on 6mg. I think this vaping concept is the solution to all my problems. I had a chest x-ray. My lungs and throat are CLEAR. I'm healthy.
