Subject: Proposed Amendments to the Poisons Standard (Medicines) – Nicotine
To: [REDACTED]

To whom it may concern,

Please note that I would like to make the following submission to have the poison standard amended to include nicotine in tobacco “prepared and packed for heating”.

I am making my submission to the TGA to help other smokers convert to heated tobacco products. I was personally a pack a day smoker and 3 years ago discovered PMI heat not burn product IQOS. I immediately converted and have never looked back. My health and well being of myself, my family and friends has never been better. It was the best decision I had ever made. I have helped convert my whole family from combustible cigarettes to IQOS as well as fellow work colleagues and friends. I highly recommend the Australian Government and Health authorities please review their decision and immediately begin the sale of IQOS and heated tobacco products in Australia. I am more than happy to be contacted and fully support this push for a smoke free nation.
