**Title:**

TGA Consultation - Options for the future regulation of low risk products

Please accept my submission and the preferred choice for homeopathy is:

**Keep homeopathy regulated the way it is.**

Homeopathy is regarded the safest option of any medicine available, and as a homeopathic I suggest TGA preserves homoeopathic products as a therapeutic goods but brings them into line with other medicines.

I strongly oppose any considerations for exempting homeopathy from the listing or declare homeopathic products not to be a therapeutic good.

Kind regards,
