

Submission:

I would like the TGS to continue to deal with homeopathic goods and prescriptions as before, with no changes to current arrangements.

I am a consumer, I have two university degrees. I understand the scientific arguments against homeopathy.

However, throughout the last 20 years (since I first came in contact with homeopathy), its medicines have been useful to me, my children and our dog even, on numerous occasions. For example"

- Healed from migraine headaches
- Significantly reduced frequency and intensity of other headaches I used to suffer, for most of my adult life
- Stopped my first child's colicky pain, in an instant – it was a life saver!!
- Prevented travel sickness in my children
- Calmed them when they had had a shock
- Stopped the pain of insect bites
- Cured flu-symptoms overnight
- Cured many attacks of sinusitis, coughs, ear aches, and sore throats
- Cured unexplainable pains in the liver area and returned me to good health and energy for daily life
- Helped my dog when her leg was run over by a car: to help the skin grow back over the wound when the vet began considering skin grafts because the wounds wouldn't close, also helped remove pain from the injury (from limping to walking and running healthily).

Please also consider that homeopathy has evidenced little to no side effects (contrary to allopathic medicine), and most medicines cost very little compared to traditional medicines.

Please leave homeopaths and homeopathic medicine to continue to exist as has!!

Yours sincerely
