

TO WHOM IT MAY CONCERN

I have been using Homeopathic preparation remedies for at least 25 years and worked as a General Practitioner in Rome, Italy.

I have obtained excellent results without side effects, to the point that even very allergic clients could use Homeopathic preparations, including children and infants.

I would also like to point out, after having worked with Homeopathy in Europe for nearly 20 years, that there are quite numerous scientific evidence and continuous clinical trials and there a lot of Medical Doctors who uses Homeopathy in the world.

For the above reasons I wish to keep Homeopathy regulated the way it is.

Sincerely yours,
