

11th May 2017

To Whom it may concern,

It is imperative that I have access to homeopathic medicines in Australia, and to be able to choose my own form of adjunctive healthcare. I have used this type of medicine through out my life and my children's life without ill effect and I use this as my own choice, along with other types of western medicine.

I am strongly in favour of OPTION 1, (the current classification which does not restrict access to homoeopathic medicines) and I AM NOT IN FAVOUR OF OPTION 4 (the re-classifying of homoeopathic remedies as non-therapeutic).

Yours sincerely

Penelope Bellamy
