TGA
Department of Health
Submission of response to Homeopathy Status changes

I wish to lodge my opposition to the proposed changes to the status of Homeopaths in Australia.

I believe homeopathy is the safest option of any medicine available and I support Option 1 and/or Option 2 as it preserves homoeopathic products as therapeutic goods. I oppose Options 3 and 4.

I believe that the TGA's role is to protect public safety and not to make a value judgement or restrict access to safe products Australians as myself can freely choose to use as a therapeutic good.

With regard
Marilyn Lemaire ND, Masters of Health Science
