TO WHOM IT MAY CONCERN

I have been using homoeopathy for over 10 years now and have found it to be highly effective in treating a myriad of ailments.

Many countries all over the world, like India, the UK and other European nations, see the value of Homeopathy and have been using it in their Healthcare programs for decades.

I strongly believe that option 1(keep homoeopathy regulated the way it is) is the only option for the future of homoeopathy.

I trust in Homoeopathy and believe that I should have the right to decide which form of medicine is right for me. I do not like being dictated to and feel that everyone should be able to choose for themselves what is best for them.

Please listen to the requests from concerned citizens of Australia. We say no to options 3 and 4. Australians should be free to use homoeopathics as therapeutic goods.

Keep homoeopathy regulated the way it is

Yours sincerely

JM
