

Thank you for your email dated 20 February 2019 regarding the public consultation about [potential reclassification of active medical devices for diagnosis and patient therapy](#).

I note that your email below appears to indicate that your submission is the following:

***NSW response:***

- *Support the proposal to reclassify*
- *It would be useful to hear more about the lessons learnt from EU and USA implementation. At the moment it seems the lessons learnt are only from the planning phase*
